THE FOOT CARE  
OF SPECIALISTS WITH  
THE POWER OF NATURE

GEHWOL  
FUSSKRAFT®

## THE PRO BRAND FOR EFFECTIVE FOOT CARE

For over 60 years, foot specialists and their customers have relied on the proven products from GEHWOL FUSSKRAFT, which are available exclusively through practices and institutes.

The essential oils of rosemary, mountain pine and lavender in our products are typical for the entire series. Their composition invigorates, promotes well-being, and lends all GEHWOL FUSSKRAFT products their typical scent. All GEHWOL FUSSKRAFT products are dermatologically tested and also suitable for diabetics. Now the proven care series appears in a new, modern look.

# FOOT MANIFESTO

The feet are the foundation of our body. They give us stability and balance, while moving or standing, every day. They are supports, shock absorbers and springs. They are also an important part of our sensory system. More than 70,000 nerve endings tell us about the ground beneath us, allowing us to evenly distribute our body weight, adjust our posture and avoid slipping or falling.

No two feet are alike. Each has its own unique character. Feet can be read like faces. Along with traces of age, lifestyle and health, they also show how important they are to their owners. The more love we give our feet, the more reliably they serve us.

Which is why GEHWOL has been committed to healthy, well-groomed feet since 1868. It is also why GEHWOL develops, produces and sells products that do more than just keeping up with the times, helping everyone who cares about their foot health every day.
