EFESOL drill bath

## MASSAGE EMULSION

formerly GEHWOL Emulsion for foot massage

The **Massage Emulsion** lastingly deodorizes and protects against fungal infections.

- Contains menthol, camphor, lavender and rosemary
- Forms a silky film on the skin for a pleasant massage
- Long-lasting deodorisation and protection against fungus

Also suitable  
for diabetics

Dermatologically  
tested

## SPECIAL PREPARATIONS AND WASHING GELS

## LOTION

formerly GEHWOL LOTION

Disinfecting alcohol-based **Lotion** cleanses and refreshes the feet.

- Disinfecting alcohol-based lotion with menthol and lavender oil
- Binds moisture in the skin
- Suitable for use before or after foot care
- Protects against foot fungus and bacteria

Also suitable  
for diabetics

Dermatologically  
tested

## MED. WASHING GEL SOFT

formerly GERLASAN Soft

For all skin types

**Mildly and thoroughly cleanses hands.**

- Moisturising medicinal hand washing gel
- Protein for skin protection
- pH neutral
- Forms a fine, stable foam
- With a pleasant scent
- Suitable for all skin types
- No colourants, parabens or alcohol

Also suitable  
for diabetics

Dermatologically  
tested

## MED. WASHING GEL PROTECT

For all skin types

New

**Patented washing gel designed for medical professionals, builds up a protective film.**

- Ideal for professional skin protection when washing hands frequently
- Forms a protective film with moisturising amino acid tensides
- Repeated use strengthens the soothing and protective effect
- Suitable for all skin types, including sensitive and dry skin
- No fragrances, parabens, colourants, alcohol or soap

Also suitable  
for diabetics

Dermatologically  
tested

## CALLUS SOFTENING FOAM

formerly GEHWOL FUSSKRAFT® Callus Softener

Softens callus quickly and effectively

The **callus softening foam** significantly shortened treatment time.

- Softened calluses can be easily removed after just five minutes
- Shortens treatment time considerably
- Dispenser system converts the liquid product into a fine foam with highly concentrated urea and lactic acid
- Foam remains stable on the skin without causing swelling
- Prevents unintended softening of other skin areas
- No fragrances

## SPECIAL PREPARATIONS AND WASHING GELS

## CALLUS SOFTENER

formerly GEHWOL Callus Softener

Softens calluses, corns and hard skin

For **professional use only**.

- Alkaline solution, especially effective
- Softens calluses in just five minutes
- Application prior to instrumental removal by a foot specialist
- Affected areas are moistened shortly before treatment
- No fragrances

## RECONSTRUCTION OR ENHANCEMENT

### WITH GEHWOL PROFESSIONAL NAIL COMPOUND

While for many, beauty takes centre stage when it comes to nails, the primary purpose of toenails is their important role in protecting people. They prevent foreign bodies and pathogens from entering the sensitive nail bed – that makes them a kind of natural shield for your toe. Both your fingernails and toenails play an important role for the body. They ensure you're able to move without problems and, as skin appendages, count among the five sensory organs without which we'd be totally disoriented. Various causes can result in damage to the nail plate and part of the nail breaking off or having to be removed.

A complete nail compound is a particularly simple reconstruction or enhancement method for nails that have been partially damaged. GEHWOL PROFESSIONAL Nail Compound is perfect for this. A thin layer is applied to the nails right out of the tube. While the compound cures in the air over the course of around five minutes, the nail is shaped. To provide stabilisation, a mesh can be placed in the still-wet nail compound. This artificial nail protects the nail bed and is almost identical to the natural nail. It grows alongside it and can be cut and filed just like a normal nail.

You can find more content on the topic of nail prosthetics for an improved look and for protection here:

### NAIL REPAIR SYSTEM

## NAIL COMPOUND

formerly GEHWOL Nail Compound

For beautifying, protecting and repairing your finger- and toenails

Enhances, repairs, and safeguards toenails and fingernails.

- Strongly adhesive, durably elastic paste for smoothing uneven and strengthening torn nails and for attaching artificial nails
- Protects against nail fungus
- Gives the nails a lovely, natural look
- Nail polish can also be applied

Dermatologically  
tested

## NAIL REPAIR SYSTEM

GEHWOL PROFESSIONAL Nail Repair offers an ultra-efficient nail correction system for manicures and pedicures. Here, you'll find everything you need to properly reconstruct the entire nail plate or parts of it: Cleaner for cleaning the nail surface and clear, pink and opal moderately and highly viscous gels that can be mixed and give the prosthesis an authentic look and structure. Nail prosthetics used as part of treating fungal infections benefit from antimycotic ingredients in the gels. They prevent new fungal infections from occurring. The LED light-curing device for your practice and the mobile UV lamp for when you're out allow you to cure the gels in no time. Practical: Unlike traditional UV lamps, the LED device doesn't need tubes to be changed. You can also remove the base plate, which makes the device easy to clean.

## GEL MODELLING BRUSH

formerly GEHWOL gel modelling brush

- 318 010 400 with 10 replacement heads, size 4
- 318 010 500 with 10 replacement heads, size 6
- The gel can be easily shaped with the gel modelling brushes

## NAIL REPAIR SYSTEM

### NAIL REPAIR CLEANER

formerly GEHWOL Nail repair cleaner

For **cleaning** and **degreasing** nail surfaces.

- For cleaning and degreasing nails before applying GEHWOL® PROFESSIONAL Nail Repair Gel
- After building up the nail, the dispersion layer should be removed with the cleaner
- Instruments and brushes that are moistened with uncured GEHWOL® PROFESSIONAL Nail Repair Gel can also be cleaned with it

## NAIL REPAIR GEL, M

formerly GEHWOL Nail repair Gel, M

For restoring diseased or damaged nails, **medium viscosity**.

- Light-curing polymerisation resin allows a highly elastic nail coating adapted to the natural nail
- For treating damaged, brittle and torn nails
- Can also be used to attach nail clips
- Self adhesive and tension free, can be applied without a special primer
- The thin tip of the tube allows it to be applied sparingly, precisely and hygienically
- Cures under UV light
- Can prevent new fungal infections

## NAIL REPAIR GEL, H

formerly GEHWOL Nail repair Gel, H

For restoring diseased or damaged nails, **high viscosity**.

- Light-curing polymerisation resin allows a highly elastic nail coating adapted to the natural nail
- For treating damaged, brittle and torn nails
- Can also be used to attach nail clips
- Self adhesive and tension free, can be applied without a special primer
- The thin tip of the tube allows it to be applied sparingly, precisely and hygienically
- Cures under UV light
- Can prevent new fungal infections

PROTECTION AND DISINFECTION

## FACE MASK

formerly GERLACH TECHNIK face mask

### Protection against infections for patients and caregivers.

- Effective protection through high-performance 3-ply filter design
- Moisture resistant due to breathable skin-friendly 3-layer system
- Very comfortable to wear with cotton-covered ear loops and nose wires
- 50 pieces per pack, PU = 10 packs

Medical  
Device

## NITRILE GLOVES

formerly GERLACH TECHNIK nitrile gloves

### Disposable examination gloves made of Nitrile.

- Snug, precise fit, with excellent tactile sensitivity
- Tear resistant for extremely precise work
- Odourless and powder-free
- 100 pieces per pack; PU = 10 packs
- Available in sizes S, M, L, XL

## PROTECTION AND DISINFECTION

## LATEX GLOVES

formerly GERLACH TECHNIK latex gloves

### Disposable Examination Gloves Made of [Latex](#).

- Hypoallergenic due to low latex protein content and no powder
- Good grip thanks to roughened surface, especially in damp conditions
- Extremely snug and precise fit with excellent tactile sensitivity
- Highly tear-resistant, virus-proof, disinfectable, alcohol resistant
- 100 pieces per pack; PU = 10 packs
- Available in sizes S, M, L, XL

## EFESOL DRILL BATH

formerly EFESOL BOHRERBAD

**Intensive cleaner for steel, carbide and diamond drills and cutters.**

- Ready-to-use, apply undiluted
- Contaminated cutters must be completely covered
- Protein and callus particles are dissolved by the special active substance
- Drill bits are not affected and remain sharp
- Not suitable for ceramic grinders
- Causes staining on aluminium parts

# FOOT MANIFESTO

The feet are the foundation of our body. They give us stability and balance, while moving or standing, every day. They are supports, shock absorbers and springs. They are also an important part of our sensory system. More than 70,000 nerve endings tell us about the ground beneath us, allowing us to evenly distribute our body weight, adjust our posture and avoid slipping or falling.

No two feet are alike. Each has its own unique character. Feet can be read like faces. Along with traces of age, lifestyle and health, they also show how important they are to their owners. The more love we give our feet, the more reliably they serve us.

Which is why GEHWOL has been committed to healthy, well-groomed feet since 1868. It is also why GEHWOL develops, produces and sells products that do more than just keeping up with the times, helping everyone who cares about their foot health every day.
